Beyblade burst rivals room codes

Share Beyblade Burst Rivals is a free game to play, mobile puzzle developed and released by Epic Story Interactive for iOS and Android platforms. The game was released globally in July 2018 and is the first title released by the game studio. Beyblade Burst Rivals combines role-playing elements and strategy with strategic mechanics based on the TV series Beyblade Burst. It features more than 30 qual characters, Beyblades (called Beys) and Avatar. The game is a three racing puzzle game, requiring players to move and match colored tiles arranged in a grid. The number and type of matches determines the source and how much damage the Babled Blader attacks are and how much damage they cause. The extra layer of challenge is the acquisition, selection, and improvement of a player's team of Bladers, Beys and Avatar ranging from standard fare to rare and unique prizes from the popular franchise. The game is free to play and is financed by selling currency in the game. This is a commercial success with more than 5 million downloads by December 2019. Community content is available under CC-BY-SA unless otherwise noted.
